Objectives

I'm looking for an internship opportunity where I can share my passion, strong work ethic, and eagerness to learn. As I support the team and work on worthwhile projects, I hope to improve my abilities and obtain practical web development experience. By using my academic background and gaining real-world experience in a workplace, I hope to advance both professionally and personally.

Projects Handled

Full Stack Developer - NUFSO (2024 – 2025)

- This project focuses on developing an automated re-ranking system for faculties of national university manila using MongoDB, ExpressJS, React, and NodeJS (MERN).
